

ANARCHIST ALTERNATIVES TO SUICIDE...

FUCKED UP with the broo? — Well let's cut the suicide crap: that's just what they're wanting you to do. There's already two less for this month's Unemployment Figures... We may as well face it, there's going to be no more REAL jobs around here for a long time. The most you can expect is more kid— on government jobs; like the Youth Opportunities Project. And that's just to discipline the kids... they reckon everyone else will stay depressed and passive.

EVERY Political Party makes out that you are not a Real Human Being without a job, and in doing so encourage these Kamikaze characters. Looking back though, working on the Assembly Lines and Factories were hardly the best years of our lives... Of course, being on the broo IS miserable; that's the way it was designed to be. But if the Unemployed organised independantly we could change things. Maybe even enjoy ourselves. Now that would fuck THEM up...

MAGGIE THATCHER: ANTI-CHRIST?

MAGGIE THATCHER is scheming, vindictive, and sadistic. So what's new? ... Show us a politician that isn't. What IS new is the attempts by conniving careerists to channel the real anger felt against the Tories to further their own ambitions. These latter day Pied Pipers make out Thatcher's a refugee from 'The Omen'. Maybe so, but Labour MPs are no angels either. EVERYONE is corrupted by power...politicians, polis, popstars: anyone with authority will use it for their own ends.

The real fight is against authority in all its forms: anything else is hypocrisy.

YOUR FUTURE LEADERS?

IN THE LAST FEW DAYS, the police and Army have been holding joint 'anti-terrorist' exercises near Hamilton.

This kind of thing has been done before in England; Heathrow Airport was twice surrounded by Police and Army with tanks etc., in anti-riot exercises. The real reason behind these events is not fear of terrorists but fear of the population. By learning to work together the Police and Army will be much more efficient when it comes to repressing social unrest. The further militarising of the Police is also reported by our inside man in the Royal Ordnance Factory, at Bishopton. The police are using No-Go areas in the huge grounds of the R.O.F. to practise riot control methods. Strathclyde Police smugly announced recently that they are ready for any 'social unrest'...

In 1919, during civil disturbances, in Glasgow the local Highland Light Infantry were confined to Maryhill Barracks as being unreliable, while other regiments were called in to squash their fellow citizens. But today, the Army and Police chiefs have more faith in training techniques; soldiers and cops are so zombie-like today, they'd shoot their own Gran for a Gold Star in their report books. Don't forget— it is not only riots, strikes, and demonstrations that scare the state; a major and probably final use of militarised police and the Army will be to control the people during a build up to nuclear war. They will cut off towns, block roads, shut down communications ensuring that you stay put while the State engages in your murder. Think about it...

LAST TIME... Tanks in Glasgow Meat Market, 1919.

BEING UNEMPLOYED means many tribulations... including running the gauntlet of the 'Poverty Industry'...

This multi-million pound Industry, with succulent salaries of £8,000 plus, and 'Jobs for the Boys' galore, is the one boom area in the West of Scotland. It is supposed to help the unemployed, but its real purpose is one of CONTROL.

Just like the Community Workers who effectively sabotage rent strikes and any meaningful local action, these 'professionals' manipulate by means of specialised knowledge, or Urban Aid patronage. Many will claim to be 'socialists'—but they start by defending their positions... and end by defending their possessions. They are all part of what Thatcher smugly calls her 'SAFETY NET'.

Even many once-militant Claimant Union members have been captured, with the bait of a fat salary as a Government Lackey.

Those who try to 'use' the State only end up by being used BY it.

REAL change will only come when the unemployed organise independently without any 'professional' middle-men, and fight to stay totally independent, both politically and financially.

THE REVOLUTION WILL NOT BE SUPERANNUATED!

DIRECT ACTION AGAINST NUCLEAR WEAPONS.

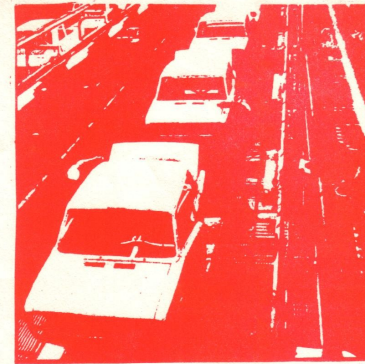

Fed up with those endless meetings and marching forever?
Don't be fooled with the 'parliamentary' road to change, NO Governments going to ban
Nuclear weapons.No amount of petitions will change their minds.The Labour Party let us
down before,why should it be different this time.
The only real means of change is by DIRECT ACTION.
Passive Marches of this kind will do nothing to change the State's plans on nuclear arms,
as can be seen from the massive and ineffective CND rallies of the 60's.
Bases will have to be picketed and occuppied before the Government takes notice.
People will have to develop more effective and imaginative ways to achieve nuclear disarm-
ament.Giving up your responsibility to a 'leadership' only channels your activity into
'acceptable' forms of protest.
With Trident and Cruise,we are in even more danger of nuclear war.AND WE HAVEN'T LONG TO
GO BEFORE THEY'RE REALITY!!!

Take effective action to stop Cruise and Trident NOW!!

America and Russia are preparing for a 'limited' nuclear war in Europe.It is the people of
Europe who will suffer the highest casualties.It is estimated that approximately 40 million
will be killed,what one American General calls 'acceptable' casualty levels.
If you don't want to end up being a statistic in someone elses war,

TAKE ACTION NOW!!

THE END OF THE LINE

THE 'SALE OF THE CENTURY' AUCTION is the final round in the political basketball game that has lasted almost twenty years. The final play consists of politely asking Peugeot for a donation for the local community ...as if the Firm that uses armed mercenaries to break strikes in France will do anything other than laugh in your face. |

We can only hope that it isn't only car building that is finished in the West of Scotland, but the politics of compromise as well. Remember Chrysler and their 'workers participation' scheme? Participate in your own exploitation... In the midst of the destruction of every traditional industry, and the return of **REAL** poverty to Clydeside, all the 'Labour Movement' can offer is the bickering gurus of Foot and Benn.

But a movement of discontent is growing, beyond the control of ANY political party or union bureaucracy. And when that 'movement' shows itself in the factories, it will be a whole new ball game...

SMASH HIP CAPITALISM.

FOLLOWING THE DISTRIBUTION of a leaflet attacking the way the way that Virgin Records with their chain of Megastores rip off youth rebellion and sell it back in 'hip' form, two Clyde-side libertarian socialists were fined £125 on the 25th October at Glasgow Sheriff Court.

The fines were imposed for 'Breach of the Peace' which happened as a group of punk anarchists were leaving the Glasgow Megastore after distributing the leaflet in the Singles section of the first floor in the Union St. premises. A couple of the bouncers reacted to the punks shouting 'All records are free', by wading in and trying to detain people. This led to a melee during which the two were detained and charged with a breach and assault (one of them had assaulted the boot of a bouncer with his chin and his side, after throwing himself down a flight of stairs!)

After being somewhat baffled by the case, and reading confiscated material, the Judge imposed fines of £125 each on the two accused.

The support group are appealing to the enemies of the commodity and hip capitalism to contribute to a fund to clear the fines and help towards legal costs. Further details in issue no.2 of PRACTICAL ANARCHY, Clydeside's new revolutionary paper, out soon. Or write to box V2, c/o 488 Great Western Road, GLASGOW.

SIR WILLIAM GRAY, ex-Glasgow Provost, Labour Party Baron, and Chairman of the new 'CASH FROM CASUALTIES' Private Hospital...

- ★ ANOTHER TRAITOR who has made a career from climbing on the workers' backs...
- ★ ANOTHER FAKIR: another manipulating politician who has used his position in the Scottish Development Agency to develop his own power and prestige...
- ★ ANOTHER FRAUD, COURTESY OF STRATHCLYDE LABOUR PARTY!

bristol, brixton... blythswood square?

THE EVENTS in Bristol in 1980, and in Brixton in the past month herald a new movement of protest. At last the dismal politics of lobbying and "protest" have given way to direct action. With this new spontaneity comes new tactics- as can be seen from the confusion of the police at Brixton...When Dog Squads were brought in, in an attempt to clear the streets, the population did momentarily disperse; only to return with their OWN dogs and regain control. And the 'prepared' bomb factories so beloved by the Sunday Press were in fact crates of empty beer bottles procured from local pubs, and turned into instant molotovs. After years of Advertising Industry seduction, the people of Brixton obtained the household items of their dreams...using bricks as the new "Access" Card.

★ ★ ★ ★ ★

When it was all over, the left wing Parties moved in, to give "correct leadership". But as at Lewisham in 1977 when SWP stewards called for calm and an end to stone throwing, their appeals fell on deaf ears. The new autonomous movement instinctively knows that while they might be invaluable to these Latter Day Lenins on the first day of the Revolution, they may not be around for to long on the second...

★ ★ ★ ★ ★

Meanwhile in Glasgow, one of the most deprived areas of Europe, the only token of protest is the occasional march from Blythswood Square, which more and more have the character of religious rituals. And even when the controlled rebellion of these pageants are banned by Inspector Hammill, there is hardly a hint of dissent. For decades "revolutionaries" in Glasgow

riot in glasgow, january 1919

have been obsessed with capturing positions of "power", and generally working through procedure. And it is precisely the dead weight of these ideas that is delaying any REAL resistance in Clydeside. Only through a spontaneous, non-hierarchical movement is their any hope of us taking control of our own lives...
